ANNUAL REPORT OF THE SCHOOL BOARD..

The progress made in our schools the past year will, we think, compare favorably with previous years. Good and thorough work has been done, not perfect in every respect, yet as nearly so as could reasonably be expected. The teachers, we believe, have all worked well and faithfully.

It has been the aim of the School Board to act with strict impartiality and to the end that all the scholars in the district should have as nearly equal advantages as practicable.

The strength and safety of our, or any Republican form of government, depends upon the education of the mass of the people, rich and poor alike as near as may be; hence the vital importance of a liberal support of the free public schools.

We submit herewith a statement of the expenditures for the year, also a list of the scholars who have been perfect in attendance for one term or more, and other statistics as required by law.
